About This Event

Discover what World Class organizations such as Allied Signal, Bank of America, The Coca-Cola Company, Caterpillar, General Electric, McKesson, Motorola, Toyota and Virginia Mason Clinic already know: **Lean Six Sigma can significantly improve your bottom line and customer experience.** Take the first step to becoming a certified Lean Six Sigma professional and learn how to drive better results in your business by attending this practical, tool-based workshop.

Learning Objectives

This one-day introductory course is designed to give participants an overview of Lean Six Sigma principles and methodology. Participants will learn the key components of the **DMAIC (DEFINE-MEASURE-ANALYZE-IMPROVE-CONTROL)** framework to become more effective problem solvers, systems thinkers, and make better data-based decisions.

Curriculum Includes

- Lean Six Sigma philosophy, goals and objectives
- Six Sigma structure and organization
- DMAIC process & key tools for each stage
- Lean overview: tools to eliminate waste and improve cycle time
- Understanding data and variation

Participants will be given an end-of-course, open book examination. Each attendee that scores **80% or higher** will receive a Lean Six Sigma Yellow Belt Certification of Completion. All attendees should bring a notepad and a basic calculator.

We are proud to partner with **Birch Communications** — a technology leader based in Atlanta.
