About this Workshop

LEAN is a powerful system for streamlining processes, reducing waste by identifying non-value activities and increasing productivity.

This 1-day **LEAN** Boot Camp offers practical training in core **LEAN** tools and techniques. Participants will learn to apply the tools and techniques through an engaging, hands-on production simulation and team exercises. At the end of the course, you'll take the LEAN Practitioner examination. Minimum score of 80% or higher to receive certification. Participants should bring a notepad and a basic calculator.

How You'll Benefit

- Successfully apply LEAN principles and techniques in your operations.
- Identify non-value activities and eliminate waste.
- Perform systematic Root Cause Analysis to prevent future problems.
- Rapidly implement proven solutions to streamline processes.

What You'll Learn

- LEAN Methodology and Principles
- Process Improvement Framework
- The 8 Wastes in Manufacturing
- Value Add vs. Non-Value Add
- Push vs. Pull flow
- LEAN Lego Simulation
- Value Stream Mapping
- Cycle Time, Lead Time, Takt Time
- Fishbone Diagrams / 5 Whys
- Load Balancing Charts
- One-Piece Flow, Kanban
- 5S Simulation
- Standard Work, Poka Yoke, Visual Management

Conveniently located north of Atlanta in Acworth, Georgia, the **YANMAR EVO//CENTER** is a multi-purpose showroom, training center and customer experience campus designed to support our dealers, customers and community through our mission of empowering sustainability. www.yanmarevocenter.com

Why Choose Riverwood Associates for Lean Six Sigma Training?

Riverwood Associates is a leading provider of Lean Six Sigma training for businesses and individuals. Our trainers are industry practitioners with more than 25 years of experience in the practical application of Lean Six Sigma methods and techniques. Riverwood Associates training programs are interactive, combining instruction with actual problem-solving applications. We provide training that enables participants to build problem-solving skills, streamline operations in their businesses, and increase profitability, quality, and customer satisfaction.

Your Lean Coaches

Yoel Yohan brings 30+ years experience applying Lean and Six Sigma principles in logistics, manufacturing, and financial services. Yoel

began his career at UPS and rose to become VP of Operations and Logistics. In this role, Yoel was responsible for leading process improvement programs in operations, logistics and engineering. After retiring from UPS, Yoel became First Vice President of SunTrust Bank. There, he implemented a variety of financial related process improvement projects. In 2009, Yoel became a Partner with The Progress Group, a Supply Chain Logistics and Process Improvement consulting firm. Yoel is the author of "The Corporate Drain" - Solutions for the Inefficient American Workplace. Yoel holds a Masters Certificate in project management from The George Washington University.

Peter J. Sherman

brings more than 25+ years experience leading process improvement programs in manufacturing, technology

and healthcare. Peter was a Master Black Belt with AT&T for 10 years and Director of Process Improvement for Cbeyond Communications in Atlanta for 4 years. He is a Certified Lean Six Sigma Master Black Belt, ASQ Certified Quality Engineer, and APICS Certified Supply Chain Professional. Peter began his career in Japan as an M.I.T. Scholar in 1986-87. There he worked with Dr. Edwards Deming, the noted American Quality expert, and learned Lean principles and Kaizen. Peter has authored more than 60 articles on Lean Six Sigma and process improvement. Peter holds a B.S. in Building Construction from the University of Florida, a Master's in Civil Engineering from M.I.T. and an MBA from Georgia State University.
