About This Workshop

The certified **Lean Six Sigma Black Belt** represents the culmination of your Lean Six Sigma training. Black Belts are expected to identify process improvement initiatives, lead projects, and coach Green / Yellow Belts. This 2 week training program covers advanced Lean Six Sigma principles, tools, and techniques. The core focus is understanding full DMAIC / DMADV process through exercises (individual and group). Candidates should bring laptops and calculators in order to complete statistical exercises. An approved project is required as part of the certification. Instructor will coach / advise Black Belt candidates throughout the project and evaluate the project. Green Belt certification is a pre-requisite.

What You Will Learn

- **Lean Six Sigma Overview / DMAIC and DMADV Framework:** Philosophy, goals & objectives, structure, organization.
- **Technical Skills:** Statistical Process Control, Capability, Statistical Methods & Sampling, Gage R&R, Distributions for Continuous / Discrete Data, Control Charts for Continuous (X Bar R, X Bar S, I-MR) and Discrete Data (p, np, c, u), Linear and Multiple Regression, Correlation, ANOVA, Hypothesis Testing, FMEA, Value Stream Mapping, Probability Plots, Reliability, Design of Experiments, 1-Piece Flow, Kanban, Total Productive Maintenance, LEAN metrics.
- **Project Management Skills** Project Identification and Chartering, Project Organization, Project Planning, Team and Facilitation Techniques, Portfolio Planning.
- **Financial Concepts:** Business Plans, COPQ, ROI, Payback, Break-Even Analysis.

Other Details

- **Project:** An approved project must be completed by the Black Belt candidate that demonstrates knowledge of the LSS process and techniques. The project must produce meaningful, quantifiable results (i.e., cost savings, incremental revenue, customer satisfaction improvement, etc.).
- **Analytical Software Package:** Participants will be required to purchase Quantum XL to conduct statistical and DOE analysis during class. \$549 license fee (no markup) in addition to training cost.
- **Exam:** The Black Belt exam will be conducted on the last day of training. Minimum passing grade is 80%.
- Full course details may be downloaded via the following link: <http://tinyurl.com/LeanSixSigmaBlackBelt-Course> Full details may also be accessed at

About the Facilitator

Peter J. Sherman brings more than 25 years experience leading process improvement programs in manufacturing, business services and healthcare.

Peter is a Certified Lean Six Sigma Master Black Belt, ASQ Certified Quality Engineer, and APICS Certified Supply Chain Professional.

From 2010-14, Peter served as Director of Process Excellence for Cbeyond Communications, a publicly-traded, \$500M revenue telecommunications provider based in Atlanta, GA. Previously, Peter was a Master Black Belt with AT&T for 10 years.

Peter began his career in Japan as a visiting M.I.T. Scholar in 1986-87. There he worked with Dr. Edwards Deming, the noted American Quality expert. Peter learned first-hand Japanese quality practices including the Toyota Production System and Kaizen. Later, he served as Lead Instructor of Emory University's Six Sigma Program in Atlanta, GA. Peter has authored more than 60 articles on Lean Six Sigma and quality. Peter is a columnist for *APICS Magazine's* Operational Excellence column.

Peter holds a B.S. in Building Construction from the University of Florida, a Master's in Civil Engineering from M.I.T. and an MBA from Georgia State University. Currently,
